

Read, Write, Count aims to improve the literacy and numeracy skills of Scotland's children by providing advice and support for the families of children in Primary 1, 2 and 3. It is a key driver of the Scottish Government's commitment to raise attainment for all and close the attainment gap through the driver of family learning.

The [Information for Schools](#) document provides an overview of the resources which will be delivered to P1 - P3 children during the course of this session. The Read, Write, Count materials for Primary 2 and Primary 3 children have been created to support schools in developing family engagement.

As part of the Read, Write, Count campaign P2 and P3 children across Scotland will receive a book bag (similar to that of the P1 Bookbug Pack) this Autumn. The packs will arrive in schools in October/ November.

The Scottish Book Trust have created a number of useful resources and documents on their website to support the gifting of the texts as well as using the texts within learning contexts.

It is recommended that these are gifted to children and their families during [Book Week Scotland](#), **Monday 27th November – Sunday 3rd December 2017**. The [Family Presentation](#) and the letters for [P2](#) and [P3](#) can be used in the lead up to and during the gifting process.

Schools are encouraged to make links with their local library service to support the gifting of the Read, Write, Count packs.
