# Northern Alliance NQT Professional Learning Programme 2021-22

A Glow MS Team has been set up as a space for you to connect and network with all NQTs from across the Northern Alliance and to access the professional learning materials from this programme that we hope will complement your local authority professional learning offers.

**Joining Code is: oz215iw**

Each theme will be promoted in the following months with any live professional learning sessions on the Tuesday and Thursday of the first week in the month to give options for attendees. Live sessions will be held in the general channel of the MS Team.

September: Children's Rights & Learner Participation  
October: Meeting pupils needs in a multi composite rural settings  
November: Equality & Diversity  
December: Communicating with Parents  
January: Developmentally appropriate practice to support children & young people  
February: Scottish Attainment Challenge - Addressing the poverty related attainment gap  
March: Developing Young Workforce (in all sectors)  
April: STEM (Science, Technology, Engineering & Maths) & Outdoor Learning  
May: 1+2 Languages  
June: Learning for Sustainability & Outdoor Learning

These themes all interconnect with key aspects from early sessions on children's rights and equality & diversity running as a golden thread through later sessions.

Each theme is clearly linked to the GTCS Professional Standards for Full Registration and keep the Professional Values of Social Justice, Trust and Respect, and Integrity and Professional Commitment at the heart of the programme.

Sign up to live sessions will be through an EventBrite set up for that session - please look out for these!
